## Faculty of Science and Engineering

### Department of Computer Science and Engineering

#### Program: B.Sc. in CSE

#### Mid Term Examination, Spring 2025

#### Course Title: Database Management System

#### Course Code: CSE0612225

Marks: 20

Time: 1(one) hour

(Answer all questions)

#### Questions

#### Marks

Table 1: Database View Schema

| Entity     | Attributes               | Primary Key |
|------------|--------------------------|-------------|
| Artist     | ID, Name, Address, Phone | ID          |
| Instrument | Name, Amount             |             |
| Album      | Album ID, Title, Date    | Album ID    |
| Song       | Title, Author            | Title       |

1. a) Illustrate the view schema for each entity, including attribute with values, based on the given database table structure. 4
- b) Identify the domain constraints of Artist table and Song table from view schema and explain the importance of using domain constraints. 6
2. a) Construct the SQL Queries and the ER diagram of Artist table and Song table. 6
- b) Suppose an Artist is planning to purchase some instruments from an e-commerce website. Describe the use of ACID properties in this scenario. 4
